

Technical Skills

- **Wireless Networking:** Design, Configuration, and Troubleshooting. (Expert)
- **Surveillance Systems:** Installation, Configuration, and Management. (Expert)
- **Network Management:** Monitoring, Optimization, and Security.(Advanced)
- **Project Management Tools:** Smartsheet, Google Workspace. (Advanced)
- **AI Tools:** Google Gemini, Chat GPT, Perplexity. (Advanced)
- **UX/UI Design:** Wireframing, Prototyping, User Flows, Information Architecture, Interaction Design. (Intermediate)
- **Research Skills:** User Research, Usability Testing, Surveys, Personas, Data Analysis. (Intermediate)
- **Coding Skills:** HTML, CSS, JavaScript, Responsive Web Design, Bootstrap, Php,MySQL. (Beginner)

Soft Skills

- **Leadership:** Experienced leading teams and projects, motivating team members, and making informed decisions.
- **Empathy for Others:** Ability to understand and relate to team members, stakeholders, clients and users.
- **Strong organizational skills:** managing multiple tasks and deadlines efficiently.
- **Attentive listening skills:** understanding members, stakeholders, clients and users for an effective communication with everyone.
- **Adaptability:** Quick to adapt to new challenges and changes in project requirements.
- **Problem-Solving/Troubleshooting:** Strong analytical skills to identify and resolve issues effectively.
- **Attention to Detail:** Meticulous approach to design and project execution, ensuring high-quality outcomes.

Software Proficiency

• **Wireless Networking:**

Airlink

LinkPlanner

Ruijie Cloud

• **Surveillance System:**

HikCentral Professional

Smart PSS

• **Network Management:**

Router OS

• **Design & Modelling:**

Autodesk AutoCAD

Adobe Photoshop

Figma

• **Other Tools:**

Smartsheet

Visual Studio

Microsoft Visio
